Approval: 13.06.2018

(This Trademark approval is valid for a period of 5 years from the date of issue).

The tested article PLUTONE color olive with application no. 180650 is granted approval for the trademark Trevira CS for interior use. This article was tested according to DIN 4102 part 1, 6.2 and thus also meets the requirements for fire class DIN 4102-B1.

The article was tested according to the French Standard NF P 92-503 (Brûleur électrique) and thus also meets the requirements for class M1 according to NF P 92-504, 92-505 and 92-507.

Thus meets also the requirements according to the Italian standard UNI VF 9175, class 1 IM in conjunction with suitable combustion modified foams.

Thus meets also the requirements according to British Standard BS 5852 ignition source 0 (cigarette), ignition source 1 (match) and ignition source (crib 5) in conjunction with suitable combustion modified foams (at least 50 kg/m<sup>3</sup>). Thus meets the classification according to BS 7176 "Medium Hazard".

Thus also meets the requirements according to British Standard BS 7175, ignition sources 0, 1 and 5 according to BS 5852 (bedspreads).

This article meets the requirements according to EN 1021 part 1+2 in conjunction with polyurethan foams with a density of more than 30 kg/m<sup>3</sup>.

This article can meet the requirements according to California TB 117, section 1 - cover fabric.

This article also meets the requirements for class I according to the North American standard NFPA 260 for upholstered furniture (based on the Test Reports no. 10-002-775 A + B dated 24.11.2010).
